

**REMARKS**

Favorable reconsideration of this application is respectfully requested in view of the following remarks.

The undersigned expresses appreciation to Examiner Gutman for the indication that Claims 3-9 and 11-20 would be allowable if rewritten in independent form. Claim 3 has been amended to include the subject matter recited in independent Claim 1, and Claims 1 and 10-20 have been canceled. Thus, the only claims remaining in this application is allowable Claim 3 and claims which depend from such allowable claim.

In the amendment to Claim 3 incorporating the subject matter recited in independent Claim 1, the claim objection pertaining to Claim 1 has been addressed. Accordingly, withdrawal of the claim objection is respectfully requested.

With respect to the drawing objections based on 37 C.F.R. § 1.83(a), it is noted that the current drawing figures in this application illustrate the noted features in the still pending claims. Fig. 1 illustrates a pin 15i, a groove 13h, an antenna 21 and a sensor 22, while Fig. 3 illustrates a door-locking switch 23. It is thus believed that the drawings illustrate all of the features as claimed. Accordingly, withdrawal of the drawing objections is respectfully requested.

It is believed that this application is in condition for allowance and such action is earnestly solicited.
